REACH Guideline (EG) Nr. 1907/2006

Dear Customer,

Thank you very much for your inquiry regarding the European guideline EC 1907/2006 (REACH). We are pleased to inform you about our related activities and the current situation in our point of view.

To our current understanding registration of products applies only to banned substances which are exposed under regular conditions of usage of the products during life time (disposal not included) and which exceed defined quantity limits. Therefore, we are not obliged to register. Of course, we will fulfil our information obligations according to article 33 of REACH based on the candidate list of Substances of Very High Concern (SVHC).

Please note that WDI AG being a distributor without any development and manufacturing responsibility. We totally rely on the publications of the manufacturers. Of course, we will make the manufacturers' declarations available to our customers as soon they have been published. Considering the complexity of the issue and the number of products and manufacturers, please accept that we will not answer any customer specific questionnaires nor sign any general and comprehensive statement on our behalf.

Please be sure that we will spend all our efforts to fulfil our obligations and give the best possible support to our customers.

For more information, please do not hesitate to contact us at any time.

Best regards,

Nathalie Dunger
